

**I CLAIM:**

1. A gelatinous cushion comprising:  
a base made of foamable material,  
a cushioning member attached onto said base, and made of  
5 gelatinous material for cushioning purposes, and including an outer  
peripheral surface formed thereon, and including a plurality of  
orifices formed therein for cushioning purposes, and  
an outer covering film applied onto said outer peripheral  
surface of said cushioning member, to cover said cushioning  
member, and to form a smooth outer surface for said cushioning  
member.
- 10 2. The gelatinous cushion as claimed in claim 1, wherein said  
base includes a plurality of perforations formed therein.
- 15 3. The gelatinous cushion as claimed in claim 1, wherein said  
cushioning member includes a plurality of inner peripheral surfaces  
formed therein, to define said orifices of said cushioning member  
respectively.
- 20 4. The gelatinous cushion as claimed in claim 3, wherein said  
outer covering film is applied onto said inner peripheral surfaces of  
said cushioning member.
